

This architectural elevation drawing shows a two-story house with a gabled roof covered in shingles. The walls are finished with a stone or brick pattern. The second floor features three windows: a central window flanked by two larger windows. The first floor has a central entrance with a small, flat-roofed porch supported by columns, and two large windows on either side. The entire house is set on a low foundation wall.

The floor plan shows a rectangular house with a central staircase labeled 'St.' with an arrow pointing upwards. To the left of the staircase are two bedrooms: 'Bed 1' at the bottom and 'Bed 3' at the top. To the right of the staircase is another bedroom, 'Bed 2', and a bathroom labeled 'Bath'. A central hallway, labeled 'En suite' at the bottom, provides access to the bedrooms and bathroom. There are several windows, indicated by 'W.' and small square symbols with diagonal lines. A kitchen area is located at the bottom center, represented by a grid pattern. The entrance is at the bottom center, leading into the kitchen area.

This architectural elevation drawing shows a two-story brick house with a gabled roof. The second floor features three small, square windows. The first floor has a single door with a transom window on the left and a larger double door with a transom window on the right. The entire house is constructed of brick, and the roof is covered in shingles.

A 3D perspective rendering of a two-story house. The house features a gabled roof with a textured surface. The exterior walls are finished with a stone or brick pattern. There are four windows: two on the upper floor and two on the lower floor. A small front porch with a gabled roof is located on the left side of the house. The house is set on a dark gray ground plane against a white background.

A detailed floor plan of a flat. The layout includes a Living area with a sofa and two armchairs; a Kitchen/Dining area with a dining table and chairs; a Utility room; a Staircase; a Hall; and a W.C. (Toilet). The plan also shows windows, doors, and built-in furniture like a kitchen unit and a sink.
