Subject: RE: Planning Consultation on: Y/186/21/PL

CAUTION: This email originated from outside of the organisation. You should take extra care when clicking links or opening attachments - if you are unsure the content is safe contact the IT Helpdesk before clicking or opening.

Application No: Y/186/21/PL
Site Address: Bonhams Field Main Road Yapton BN18 0DX
Description of Works: Erection of 32 No dwellings with associated works including access, landscaping and parking. This application may affect the setting of a listed buildings, may affect the Main Road/Church Road Conservation Area. This application is in CIL Zone 2 and is CIL Liable as new dwellings.

Bats

The hedgerows on site are used by bats for commuting and foraging and will need to be retained and enhanced for bats. This will include having a buffer strip around the hedgerows (5m) and during construction fencing should be used to ensure this area is undisturbed. Any gaps should also be filled in using native hedge species to improve connectivity. Conditions should be used to ensure this.

The lighting scheme for the site will need to take into consideration the presence of bats in the local area and the scheme should minimise potential impacts to any bats using the trees, hedgerows and buildings by avoiding unnecessary artificial light spill through the use of directional light sources and shielding.

We would ask that the applicant provide information to satisfy us that the complies with the guidelines outlined in the new Bats and Lighting Publication produced by the Institution of Lighting Professionals and the Bat Conservation Trust "Guidance Note 08/18 Bats and artificial lighting in the UK Bats and the Built Environment series publication should be adopted into the site plans

(http://www.bats.org.uk/news.php/406/new_guidance_on_bats_and_lighting).

Dormice

The hedgerows on site are potentially used by dormice for nesting and foraging and will need to be retained and enhanced for dormice. This will include having a buffer strip around the hedgerows (5m) and during construction fencing should be used to ensure this area is undisturbed. Any gaps should also be filled in using native hedge species to improve connectivity. Conditions should be used to ensure this.

Badgers

Prior to start on site a badger survey should be undertaken to ensure badgers are not using the site. If a badger sett is found onsite, Natural England should be consulted and a mitigation strategy produced.

Foxes

Following submission of the Ecology Update Survey and Mitigation Strategy (Sept 2020), Ecological Update Survey and Mitigation Strategy (Aug 2021) and Ecological Mitigation Strategy Addendum (Nov 2021) we are happy that the mitigation proposed would be suitable

Hedgehogs

As detailed within the Ecology Update Survey and Mitigation Strategy (Sept 2020), Ecological Update Survey and Mitigation Strategy (Aug 2021) and Ecological Mitigation Strategy Addendum (Nov 2021) precautions should be put in place for hedgehogs and the site will need to be searched carefully before works begin. If any small mammals including hedgehogs are found they should be relocated away from the construction area into surrounding suitable habitats.

Reptiles

Following submission of the Ecology Update Survey and Mitigation Strategy (Sept 2020), Ecological Update Survey and Mitigation Strategy (Aug 2021) and Ecological Mitigation Strategy Addendum (Nov 2021), we are happy that the mitigation proposed would be suitable. A condition should be used to ensure this takes place.

Nesting Birds

Any works to the trees or vegetation clearance on the site should only be undertaken outside of the bird breeding season which takes place between 1st March – 1st October. If works are required within this time an ecologist will need to check the site before any works take place (within 24 hours of any work).

Policy ENV DM5

In line with Policy ENV DM5 of the Arun District Local Plan information on Biodiversity Net Gain needs to be provided as part of the planning application prior to determination. We are satisfied that the biodiversity enhancements recommended within the Ecology Update Survey and Mitigation Strategy (Sept 2020), Ecological Update Survey and Mitigation Strategy (Aug 2021) and Ecological Mitigation Strategy Addendum (Nov 2021) are

suitable and should be incorporated into the landscaping scheme. A condition should be used to ensure this takes place.

Kind regards

Liz

NOTIFICATION FROM ARUN DISTRICT COUNCIL

Town & Country Planning Act 1990 (as amended)

Town and Country Planning (Development Management Procedure) (England) Order 2015 - Articles 16 & 18 Consultation before the grant of permission

Planning Permission

Application No: Y/186/21/PL

Registered: 24th January 2022

Site Address: Bonhams Field Main Road Yapton BN18 0DX

Grid Reference: 497542 103474

Description of Works: Erection of 32 No dwellings with associated works including access, landscaping and parking. This application may affect the setting of a listed buildings, may affect the Main Road/Church Road Conservation Area. This application is in CIL Zone 2 and is CIL Liable as new dwellings.

The Council have received the above application.

[Click here to view the application details](#)

This application has been identified as CIL Liable. Therefore please be aware that, in accordance with Appendix 2 of the Arun CIL Charging Schedule, your consultation response should only include requests for Section 106 for onsite mitigation, Pagham Harbour Management Contributions (if applicable) or Affordable Housing. "Off" Site mitigation measures directly related to this development should be dealt with by condition if possible to ensure the scaling back of Section 106 if possible. CIL contributions will be used for "off" site infrastructure mitigation schemes. Therefore if this proposal triggers the need for "off" site

mitigation, please ensure that you engage in the CIL Infrastructure List Consultation process upon receipt of a consultation letter.

Should you have any comments to make, these should be sent by replying to this email by 24th February 2022 . You can also monitor the progress of this application through the Council web site:

<https://www.arun.gov.uk/planning-application-search>

Please be aware that any comments you may make will be available on our website so please do not insert personal details or signatures on your reply.

Should the application go to appeal the Planning Inspectorate will publish any comments made to the Council on their website: <https://app.planninginspectorate.gov.uk/> but they will protect personal details.

In the absence of a reply within the period stated, I shall assume that you have no observations to make

Yours sincerely

Mr S Davis
