just to add

In the Biodiversity checklist it says "is there suitable habitat for Great Crested Newts on, or close to the application site". then the 'no' box has been ticked.

unfortunately there is no mention of how close to the site is important. On 01/06/2017 I used the irecord website as advised by the Sussex biodiversity record center to enter my sightings of Great Crested Newts in our pond, North End Road, Yapton. I find it very worrying that my record was not even mentioned in this biodiversity report

Great Crested Newts are a European protected species. The animals and their eggs, breeding sites and resting places are protected by law. <https://www.gov.uk/guidance/great-crested-newts-protection-surveys-and-licences>

Great crested newts: protection and licences - GOV.UK

Great crested newts are a European protected species. The animals and their eggs, breeding sites and resting places are protected by law. You may be able to get a licence from Natural England if ...
