Dear Ian,

From the photos that you have supplied, it does appear that you have commenced however, as we haven't been to the site to take measurements to ensure that the access is being constructed as per the approved plans, we cannot give you any definitive answer. That is not to say that we would do a site visit to check this. If you wish for a definitive answer then I would refer you back to my previous correspondence regarding a Lawful Development Certificate.

Simon

Apologies for contacting you on what I expect you may consider to be a relatively minor matter, although this is of considerable importance to my client.

In order to achieve compliance with Condition 2 of Y/99/20/PL (attached) it has been necessary to demonstrate commencement of no later than 21st February 2021. Further to emailing you photographs on 11th and 12th February 2021 of the constriction works underway at the site access you advised us to submit a Lawful Development Certificate application to obtain the Council's agreement that development has now started. This is not feasible given the 8 week determination period for an LDC.

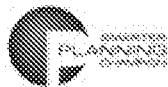

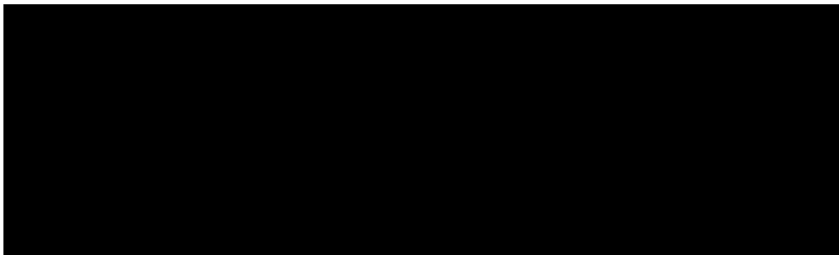

The simple matter of whether development has commenced, or not, should be clear from the material operations taking place on site, as evidenced in the photographs.

I have been instructed by my client, Seaward Properties to request your formal confirmation that they have now complied with the *performance* related Condition 2 of Y/99/20/PL in order to move forward with confidence in delivering these much needed new homes for Yapton. I trust you will agree this is not an unreasonable or onerous request.

Regards

Ian

Simon

Many thanks.

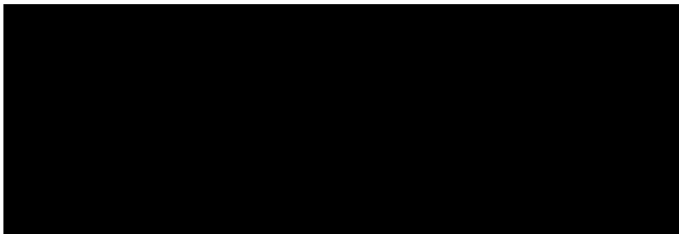

Apologies for any confusion caused. My email was just intended for the Council's records and to show from the photographs that 'a material operation' (ref. S56(4) of the TCP Act 1990) has taken place and therefore my client has now complied with the requirement in Condition 2 of Y/99/20/PL to begin development no later than 21st February 2021.

Please do not hesitate to contact me if you wish to discuss further.

Best regards

Ian

Dear Ian,

Thanks for your email which I have placed on the file for Y/99/20/PL.

I am unable to formally confirm that you have commenced the permission without submission of a Lawful Development Certificate application. I am also unsure why you want me to confirm this – I can't see it being a requirement of the Y/99/20/PL permission or the associated Deed of Variation.

Kind Regards

Dear Simon

You may not have had an opportunity to review my email yesterday, although I thought it be helpful to provide some further photographs. Please note the photos below show the full reduced level dig for 3.9 metres at the point of access into the site.

Are you content this information demonstrates commencement of development has occurred?

As an aside I briefed our client's arboricultural consultant (copied into this email) this week on our agreed approach with Mark Warwick for discharging Condition 8 – Tree Protection Measures.

The aim is instruct the contractor to install the tree and hedgerow protection measures, based on the most up to date Tree Protection Plan (2020 version), rather than the 2016 version that supported the outline consent. Presumably you would prefer this course of action as there is no specific plan reference in the wording of Condition 8 and clearly more accurate to work to the current tree and hedge locations, sizes and RPAs, rather than as existed back in 2016.

Simon

I am soon to receive photographs showing implementation of the site entrance works. Is there anything more you require from me, other than photos?
