Mr Davis,

I notice a decision is possibly imminent on the above Application, and wish to reiterate that all points raised in my previous objections very much still apply.

If allowed, the character of a unique hamlet will be lost forever. From what I have observed, surely there is more than enough new housing locally to satisfy requirements.

Our area is rapidly becoming swamped, and I can only hope your good sense will prevail in refusing what to a Developer is simply a money making exercise.

Yours in hope, with kind regards,

PATRICK HEDGES
