Dear Mr Sellar,

Town & Country Planning Act 1990 (as amended)

Town and Country Planning (Development Management Procedure) (England) Order 2015

Approval of details reserved by condition imposed under ref Y/32/17/OUT relating to Condition Nos 7 - drainage strategy detailing proposed means of foul disposal & implementation, 8 - surface water drainage, 9 - discharge flows to watercourses, 10 - maintenance & management of SuDs, 11 - access & maintenance of any watercourse or culvert and 13 - broadband.

Cinders Lane Nursery And Works To The Rear Cinders Lane Yapton BN18 0JJ

Notification regarding the above application:

Condition Number 8

Development shall not commence until full details of the proposed surface water drainage scheme have been submitted to and approved in writing by the Local Planning Authority.

The design should follow the hierarchy of preference for different types of surface water drainage disposal systems as set out in Approved Document H of the Building Regulations, the recommendations of the SuDS Manual produced by CIRIA.

Winter groundwater monitoring to establish highest annual ground water levels and Percolation testing to BRE 365, or similar approved, will be required to support the design of any Infiltration drainage.

Reason: To ensure that the proposed development is satisfactorily drained in accordance with policies GEN7 and GEN9 of the Arun District Council Local Plan. It is considered necessary for this to be a pre-commencement condition because it would not be possible to implement a surface drainage scheme once development had commenced.

Decision:

Arun District Council have decided to **APPROVE details reserved by this condition**

The following details submitted in respect of the proposed surface water drainage scheme, have been

appraised by the Councils Drainage Engineers, are considered to be acceptable and satisfy the requirements of the condition:

KNC2006-501-01-D, 02-C & 03-C Standard Construction Details, KNC2006-502-01-F Drainage Layout,
KNC2006-503-01-C Longitudinal Sections,
KNC2006-505-01-B Drained Areas,
KNC2006-507-01-B Surfacing & Kerbing,
KNC2006-506-01 Rev B Setting Out,
Green Field Run Off & Micro Drainage Calculations For Surface Water Attenuation into Sub Base (Jan 2021).

The condition is therefore fully discharged insofar as the submission of details relates and on the understanding that the surface water drainage scheme will be implemented in accordance with the approved scheme and permanently retained in good working order thereafter.

Please do not hesitate to contact the above officer if you require any further assistance.

Yours sincerely

A handwritten signature in black ink, appearing to be 'NC' followed by a flourish and a period.

Neil Crowther
