

Essential maintenance is being carried out to the planning, building control and local land charges database during the week commencing 12 April 2021.

During this time there will be no public or staff access to any records held within this database, and it will not be possible to carry out any of the following tasks via the Arun website:

- Research planning and building control history
- View any planning applications, plans, agreements, tree preservation orders or competent persons data
- Submit building control applications
- Submit planning application comments
- Report any planning compliance issues

The publicity and consultation period for all planning applications that fall over this week will be extended by a further week to ensure no one is disadvantaged.

All other aspects of planning, building control and local land charges will be limited during this week and you are strongly advised to contact the individual departments before 12 April 2021 for specific restrictions during this time.

Ecology Comments

There does not appear to be any ecological information submitted with this application to enable us to determine what the implications will be of the proposals on protected species, although a landscape plan has been submitted. Therefore we will need an ecological assessment/appraisal indicating the current habitats/habitat features at that part of the site and therefore the implications for protected species of the proposals. I understand that surveys and a mitigation plan may have been provided for the main site and these can be resubmitted with this application, provided they cover the area for this new proposal.
