Dear Miss Burrows

Re: Application No. Y/32/13/TC

Further to our telephone conversation today and your e-mailed queries of 20.06.13, I have listed my replies below.

- reduction in length of the side branches of the Yew Tree - the lowest branches only on the SE side (only) of the tree are to be reduced by 1 - 1.5m to balance the crown of the tree.
- more details / sketch of LC-12 - I have attached Photo No. 13 of Lawson Cypress (LC-12) which did not upload with the application. This Lawson Cypress (LC-12) is already slightly offset from the old hedge line and no work is to be carried out on this tree.

I hope this answers your queries but please do call or e-mail if you require anything further.

Yours sincerely

Suzanne Reynolds
