This is difficult to estimate but in reducing the crown width proportionately the longer branches may need to be reduced by 1.5 to 2m. We intend to employ an experienced tree surgeon who has worked with local authorities (Richard Moore) and will therefore produce an aesthetically pleasing result. Yours sincerely, Nicholas Sturt

Thank you for your email and the information you have provided.

Please could you confirm the length of the branches to be removed to achieve the reduction.

Kind Regards

Nicky Moore

Y/36/19/T. Please accept my apologies for the oversight. I should estimate that the Hornbeam crown reduction should be down to a height of 12m and a spread of 6m after pruning. Yours sincerely, Nicholas Sturt
