Please submit my objection to the above plan to build yet more houses in Yapton village.

Yapton has no infrastructure in place for the residents of these proposed houses, there are no places in our village school, our village doctors can not cope with seeing the residents already registered, we are unable to get treatment when we become ill, the traffic in the morning is at already dangerous levels particularly on the road where the school is based, to cross the main road in the morning is impossible with my young son and the heavy earth moving trucks steaming through the village when primary aged children are using narrow paths to get to school is a dangerous situation for our children made worse by the lack of a Lollypop lady!

It is beyond belief that even more building permission is being applied for when the infrastructure is not in place, you are putting residents at risk further and for the above reasons I object

Jane Barrett
