Thank you for your internet representation made on 10th May 2022 which has been recorded as an objection with the comments as follows:

OWPC47350

Light to houses and village blocked. Dangerous lack of access to village with no roundabouts precluding more traffic and residents. Lack of amenities like doctors, dentists, health facilities, schools. Too much existing (bored) youth crime and lack of youth clubs and facilities. On environmental grounds as too much traffic, noise and pollution. Reduction of green space when government has set targets for tree planting, increasing biodiversity and increasing wildlife. Local roads are not capable of supporting the traffic and are crumbling. Local transport links are not adequate to support more people and local services such as water, sewage, Internet, telephone structure is not capable of supporting more demand. The infrastructure is simply not capable of having yet more housing just tacked on and using the amenities. I would also like to know how this application would ensure it moves the village toward carbon neutral status (including how the air quality will be maintained with the introduction of more vehicles to the area via the residents post build) based on government targets.

Your views as made above will be considered before the application is determined.
