Dear Sirs,

I should like to submit an
objection to the application by Pallant Homes
for a development on the "Bonham's Site"
for 34 houses plus attendant vehicles.
on the following counts.

- ① Access and Ingress is very Dangerous
due to the Area not having
Sufficient Road width for vehicles.

2.

- ② We have "2" developments in this area neither of which have produced facilities for Health or Education, a new school was promised still waiting and, we need another Health Centre.
- ③ A possible development on the Golf Course would increase problems even more.
- ④ "Hoe-hane" is the last attractive real country area with older established properties in keeping with the surrounding countryside; a modern development would ruin this area, be a blot on the landscape being "modern" no matter how developers hope to achieve a "Blending".

I do not live in Hoe-hane but often over the 62 years on the Ramble walked there. The experience of how "Site 6" development has changed so much in the area I do not wish to see Hoe-hane spoilt. There are other sites more suitable available. Our school are crowded and Health Staff at breaking point PLEASE consider refusal.

Yours faithfully,

1.0
8.

People need homes I am wr against
development having 5 children however
in the right place -

Thandya
