Dear Simon,

I am writing regarding the above planning application to submit a further ecological document in support of the application.

The ecological reports submitted initially included a Bat Activity Survey Report dated 19<sup>th</sup> May 2017 which referred to the bat activity survey carried out by that time and to two further activity surveys that were yet to be carried out. The further surveys have now been carried out and the report dated 11<sup>th</sup> August detailing their findings is attached. Could this be added to the documents submitted in support of the application please.

This additional document also meets the requirement for further bat surveys referred to in the consultation response from the ADC Ecologist dated 5<sup>th</sup> July.

Any problems or queries, please ring.

Robin.
