Re: Planning Ref Y-44-15-PL

Dear sir

After moving to a small Cul-de-Sac a year ago of 6 houses part of 14 built, we are now living next to an extra 34 new homes, and they will be finished in October 2015 also using the same drive through road - to the left of them 43+ homes are also at the planning stage - Six houses to our left - one home from us (the above Ref).

I am sure this small area was not built for the amount of traffic proposed, there are two blind spots from Burdell Road from the entrance (to us six out of 14) - also we noted on new plans the new 6 houses would have their entrance off the Cul-de-Sac next to N^os 10 + 14.

There is a good entrance being used in Burdell Road (Burdell Yard) an extra 6 homes could bring 12 or more parking needs and congestion in and out of our entrance!

With thanks
