It was not a report – it was an assessment by WSCC project managers that the layout worked. WSCC commissioned Burns Guthrie to assess the Yapton school site. The feedback to me was that it was BB103 compliant but further detail would be required. This would not be a requirement for ECE.

The comments provided allow for the expansion plan for Yapton PS to remain a viable option.

Hi David,

Thanks for taking time out of your holiday to assist with this. It's just that it was our understanding that you had commissioned a report on whether the plans that ECE have put forward re a 3FE expansion of the school were acceptable in principle to WSCC. It is this comfort going forwards that we were seeking. The plan was then to pass your thoughts on to YPC and so hopefully get their support in writing to report to Wednesdays Committee.

As this appears not to be the case, I'll report back to Committee on Wednesday that County have no objections.

Kind Regards
