Application correspondence

Hi Sam,

I agree that this makes sense and is necessary to guarantee the access approval. However, as it represents a change to the application submission (notwithstanding that there is no change to the actual access proposal), we have to notify the Parish Council of the change to the application. We have to give them 21 days to provide further comments and we are thus unable to make a recommendation or decision until that 21 day period expires. However, we are not formally re-consulting the Parish Council or local people. I have therefore written to the Parish Council giving them until the 17th October. The deadline for the next Committee (17/11/18) is the 26th October and therefore, the period will expire before the agenda is finalised.

Unfortunately therefore we have to postpone the application going to Committee until November. I also note that County have not yet agreed to the S.106 and it is very late in the day to be thinking about getting this on the agenda as an emergency item (also I am not even sure this would be possible as it would need approval from Committee Services).

Please note that I am working at home with no access to a work phone so unable to receive or return calls on Thursday or Friday this week so email correspondence only until Monday 1st.

Kind Regards

Hi Simon,

On the basis that the plans referred to below have been approved previously and considered through the determination of both outline applications by WSCC we would be satisfied with that approach as long as the

reference to the application reference is removed since that application has now lapsed. We attach the relevant plans which can be added to the case file.

Hi Sam,

You had said that you were going to think about the access issue and possibly propose a further condition.

Notwithstanding, I was thinking about whether the access drawings approved by Y/93/14/OUT should be included within your plans condition. Would you have any objection if I include them as follows:

The development hereby approved shall be carried out in accordance with the following approved plans:

- Drawing 6468-04 "Location Plan";
- Swept path analysis drawing 2014/2270/002 Rev A (as submitted in respect of Y/93/14/OUT); and
- Proposed access arrangement drawing 2014/2270/001 Rev C (as submitted in respect of Y/93/14/OUT).

Kind Regards

Dear Huw,

Not sure if Sam and Chris are back yet hence writing to you.

As you will know from the 1st October, Local Planning Authorities are required to get written agreement from agents/applicants to any pre-commencement conditions. Therefore I will need agreement from ECE as to the pre-commencement conditions within our recommendation. You have 10 days to agree to this request.

Kind Regards
