Comment from Greenspace

With this being a smaller development of 10 dwellings then open space on site is not a consideration. Development of any kind should consider greening to add to the proposal and to enhance the setting. Indicative landscaping has been shown, with grass areas and shrub planting for this development, the inclusion of further landscaping to maximise and enhance the biodiversity of the site should be considered. The landscape detail should be provided in plan form showing species choice, quantities, planting densities and size at time of planting.

Any adjacent trees associated with this location and offsite that may have roots within the development area should be subject to tree protection measures.

I conclude **no landscape objection** to the proposals as shown.
