Dear Mr Phillips,

I previously sent on to you the comments of our Drainage Engineers and have not heard anything back from yourself in respect of these. I have now also received comments from our Tree Officer who is objecting as work has commenced on the site but there is no tree protection measures in place.

Your client should appreciate that the drainage and arboricultural conditions are pre-commencement type conditions and therefore, development should not be commenced until these are agreed. I would therefore ask that you contact your client to advise him to stop work. Furthermore, the tree protection measures shown on the submitted plans should be erected asap. Please advise when these measures have been erected so our Tree Officer can revisit to check.

Kind Regards

Dear Mr Phillips,

Please see attached Drainage comments which require your attention.

Kind Regards
