5. Description of Proposal

Please specify:

The proposed net increase in the total number of dwellinghouses (the number of dwellinghouses proposed by the development that is additional to the number of dwellinghouses on the site immediately prior to the development)

The number of dwellinghouses proposed by the development:

Smaller dwellinghouses (no more than 100 square metres of floor space)

Larger dwellinghouses (more than 100 but no more than 465 square metres of floor space)

5. Description of Proposal (Continued)

If relevant, the number of dwellinghouses previously developed under this permitted development right within the established agricultural unit:

Smaller dwellinghouses (no more than 100 square metres of floor space)

n/a

Larger dwellinghouses (more than 100 but no more than 465 square metres of floor space)

n/a

Please describe the proposed development, including the design and external appearance; and the siting and location of the building(s)

Change of use of existing metal sheet clad barn into single dwelling house. The redundant barn is adjacent to many of the operational farm buildings which the occupier will be working with, including a new kennels which requires 24 hour a day surveillance. As the family grow as a business and as a family, they would like to be able to convert the redundant barn as a permanent dwelling to be on the farm site.

The footprint and form of the existing barn will remain, with the roof tiled and the walls clad in timber to remain in keeping with the existing surrounding buildings.

If proposed, please provide details of any building or other operations relevant to the development. Note that to qualify for permitted development, these should only include:

- the installation or replacement of:

windows, doors, roofs, or exterior walls, or

water, drainage, electricity, gas or other services, to the extent reasonably necessary for the building to function as a dwellinghouse; and

- partial demolition to the extent reasonably necessary to carry out types of building operations listed above.

The windows and door will be powder coated aluminium, matching the various metal windows in the surrounding buildings.

The roof will be tiled or metal sheets and the walls timber clad, to compliment the agricultural surroundings.

The services for water, electric, drainage and all other facilities are already in situ, and these will be extended and relocated as required. There is no need for additional works from any of the national service providers. The barn is intended for the use of the farm so will not be divided off separately.

Please provide any relevant information on the impacts of the development in regard to noise and/or transport and highways; and risks on the site in regards to contamination and flooding.

A flood risk assessment should accompany the application where the site:

is in Flood Zones 2 or 3; or

is in a area with critical drainage problems (such areas will have been notified to the Local Planning Authority by the Environment Agency).

Check if you site location is in Flood Zone 2 or 3 online: <https://flood-map-for-planning.service.gov.uk/>

Check with your Local Planning Authority to see if your site is in an area with critical drainage problems.

The occupant for the dwelling is already on site for work and business, so there would be no additional impact on the highways or on transport.

The site is in flood zone 1 so no report is required.

The disused barn already has drainage in situ so there will be no additional run off.

6. Checklist

Please read the following checklist to make sure you have sent all the information in support of your proposal. Failure to submit all information required could result in your notification being deemed invalid. It will not be considered valid until all information required by the Local Planning Authority has been submitted. Please note that as part of this procedure, if any objections are received the Local Planning Authority may require submission of further information at a later date.

All sections of this notification completed in full, dated and signed (typed signature if sent electronically).

A plan indicating the site and showing the proposed development. A plan drawn to an identified scale will assist the authority in assessing your development proposal.

The correct fee.
