Dear Simon,

Thank you for your email.

Please could we therefore agree an extension of time until 26th August. We will do our best to work within this timeframe, however I will let you know if we have any issues.

Kind regards,

Tilly

Dear Tilly,

Our internal guidance is not to allow applications to go beyond the expiry date without good reason and that DOC's should be refused if there are objections that cannot be resolved in the timeframe. Having said, that we will allow an extension of a week past the 19th August if that is sufficient but if more time is needed then we will have to refuse and then you can resubmit when everything has been finalised.

Kind Regards

Simon J Davis MRTPI

Dear Simon,

Thank you for your email below and apologies for the delayed response.

Please see the email trails between Laura Gibbons and our Drainage Engineers attached.

Our engineers had been in contact with Paul Cann at Arun prior to the submission of this DOC application, however following their lengthy conversations they were surprised that Laura at Adur and Worthing provided the comments received within your email on 14th July. We are currently trying to work with all parties to overcome the comments, however there has been some miscommunication and overlapping of discussions as a result of this, which has caused some confusion.

As seen in the attached email we are working with all parties to overcome the concerns raised in a timely manner, albeit we may not be in the position to provide the Council with all the requested information with sufficient time for a review. Would it therefore be possible to agree an extension of time for condition 12 in order to allow us to continue the ongoing discussions with your drainage team?

Kind regards,

Tilly
