Simon,

Not sure if I came back to you on this. Happy to extend the deadline to 30th April.

I will review the conditions. I have briefly read over them – I am not sure about the EV charging points in each house. I think something like 'provision for..' or something would be more appropriate. Does the grid and local network have capacity for a EV charge point in each house? I will come back formally on it but would be interested to hear your thoughts on this point.

Kind regards,

Matt Allsopp
Principal Planner
