Dear Paul,

I am not sure whether you had seen the advice of our ecologist from August last year (I did think I had forwarded it on but can't find record that I did so). Please note the section about reptiles which requires the submission of either a detailed reptile activity survey or (assuming that they are present) a mitigation strategy for reptiles. I will need one of these providing to us before we can determine the application and so would request that you organise this.

Kind Regards
