Subject: OBJECTION Elm Barn

Dear Mr Davis and Mr White,

Things have become worse, not better.

At least on the original plans we had a few trees and not so many houses near our boundary.

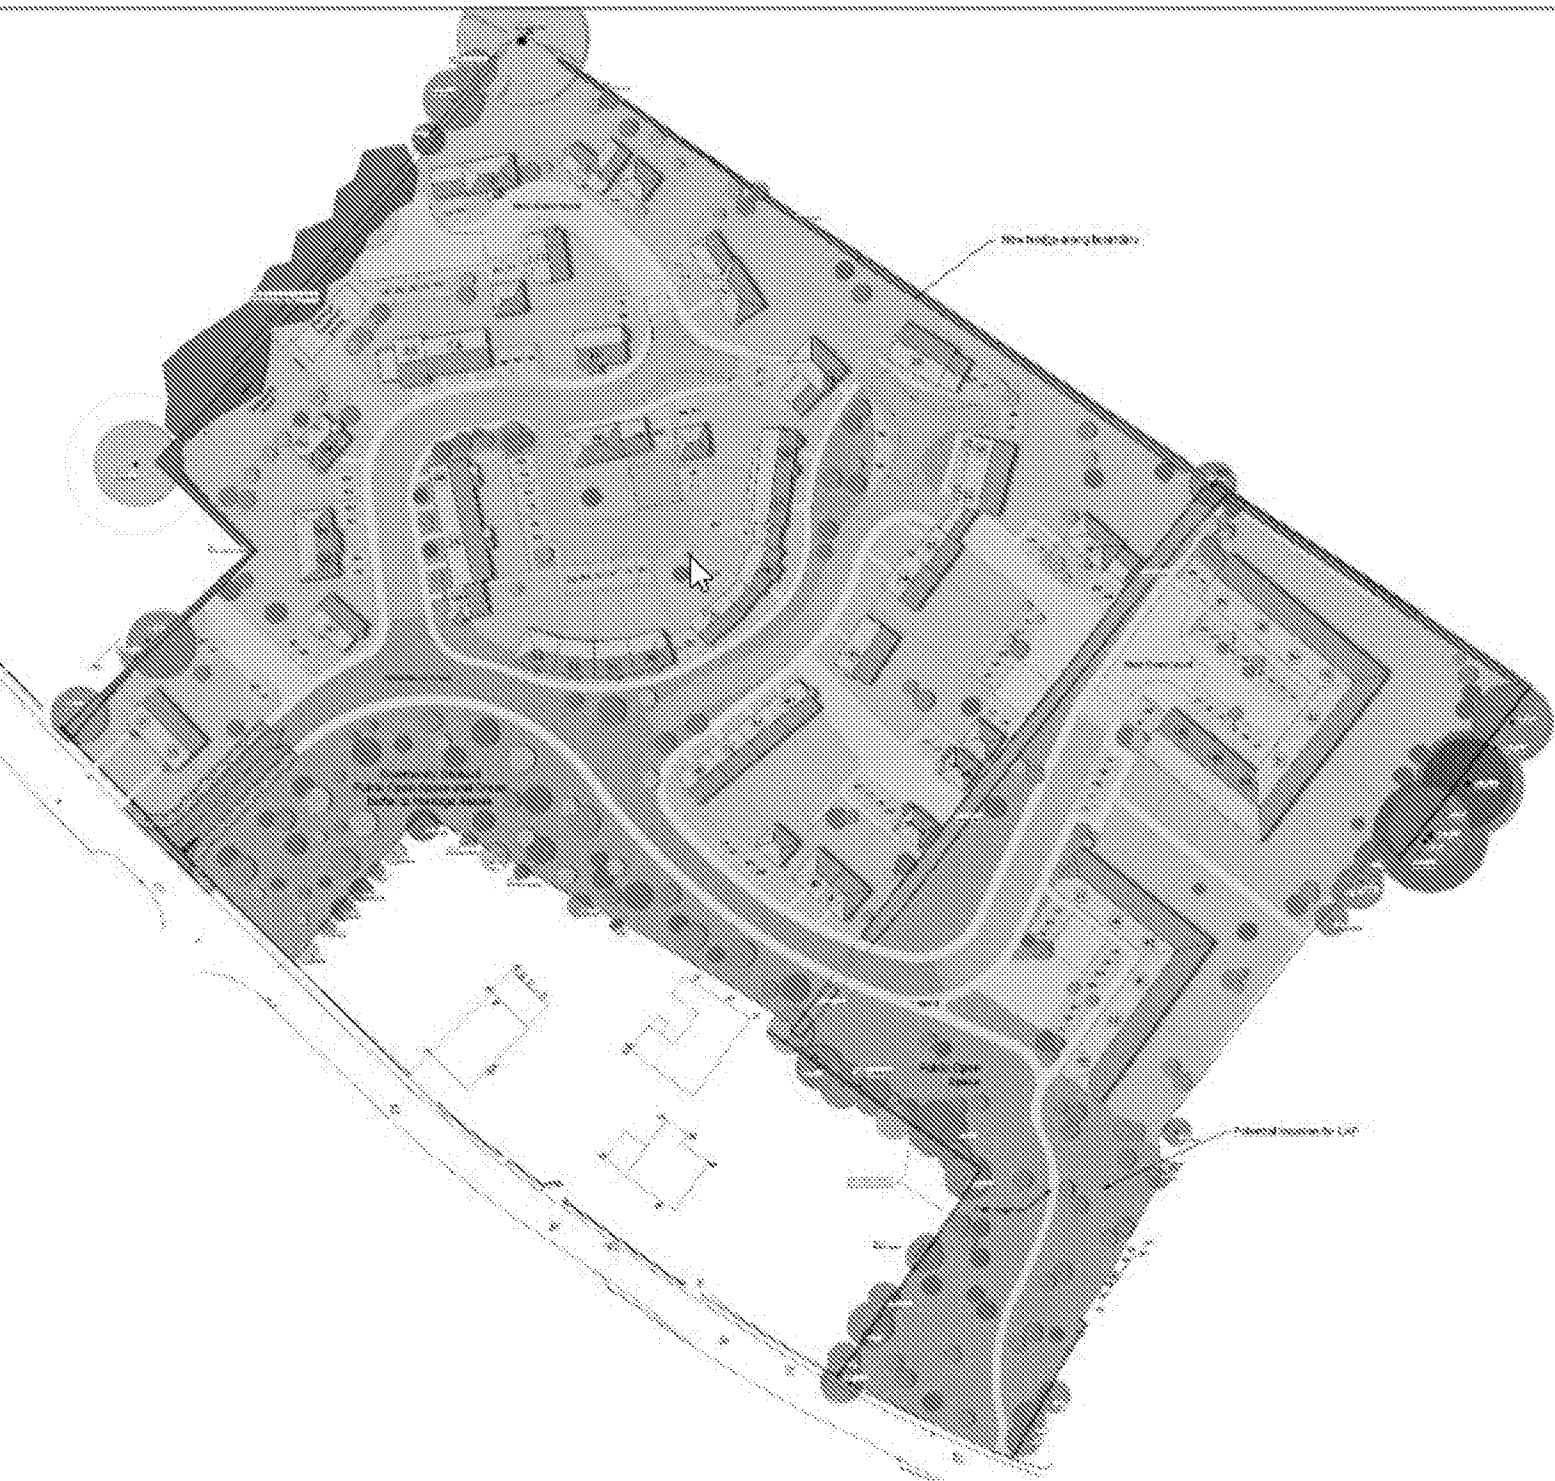

Now we do not have any planting, let alone trees and a load more houses. It's a disgrace, both morally and visually.

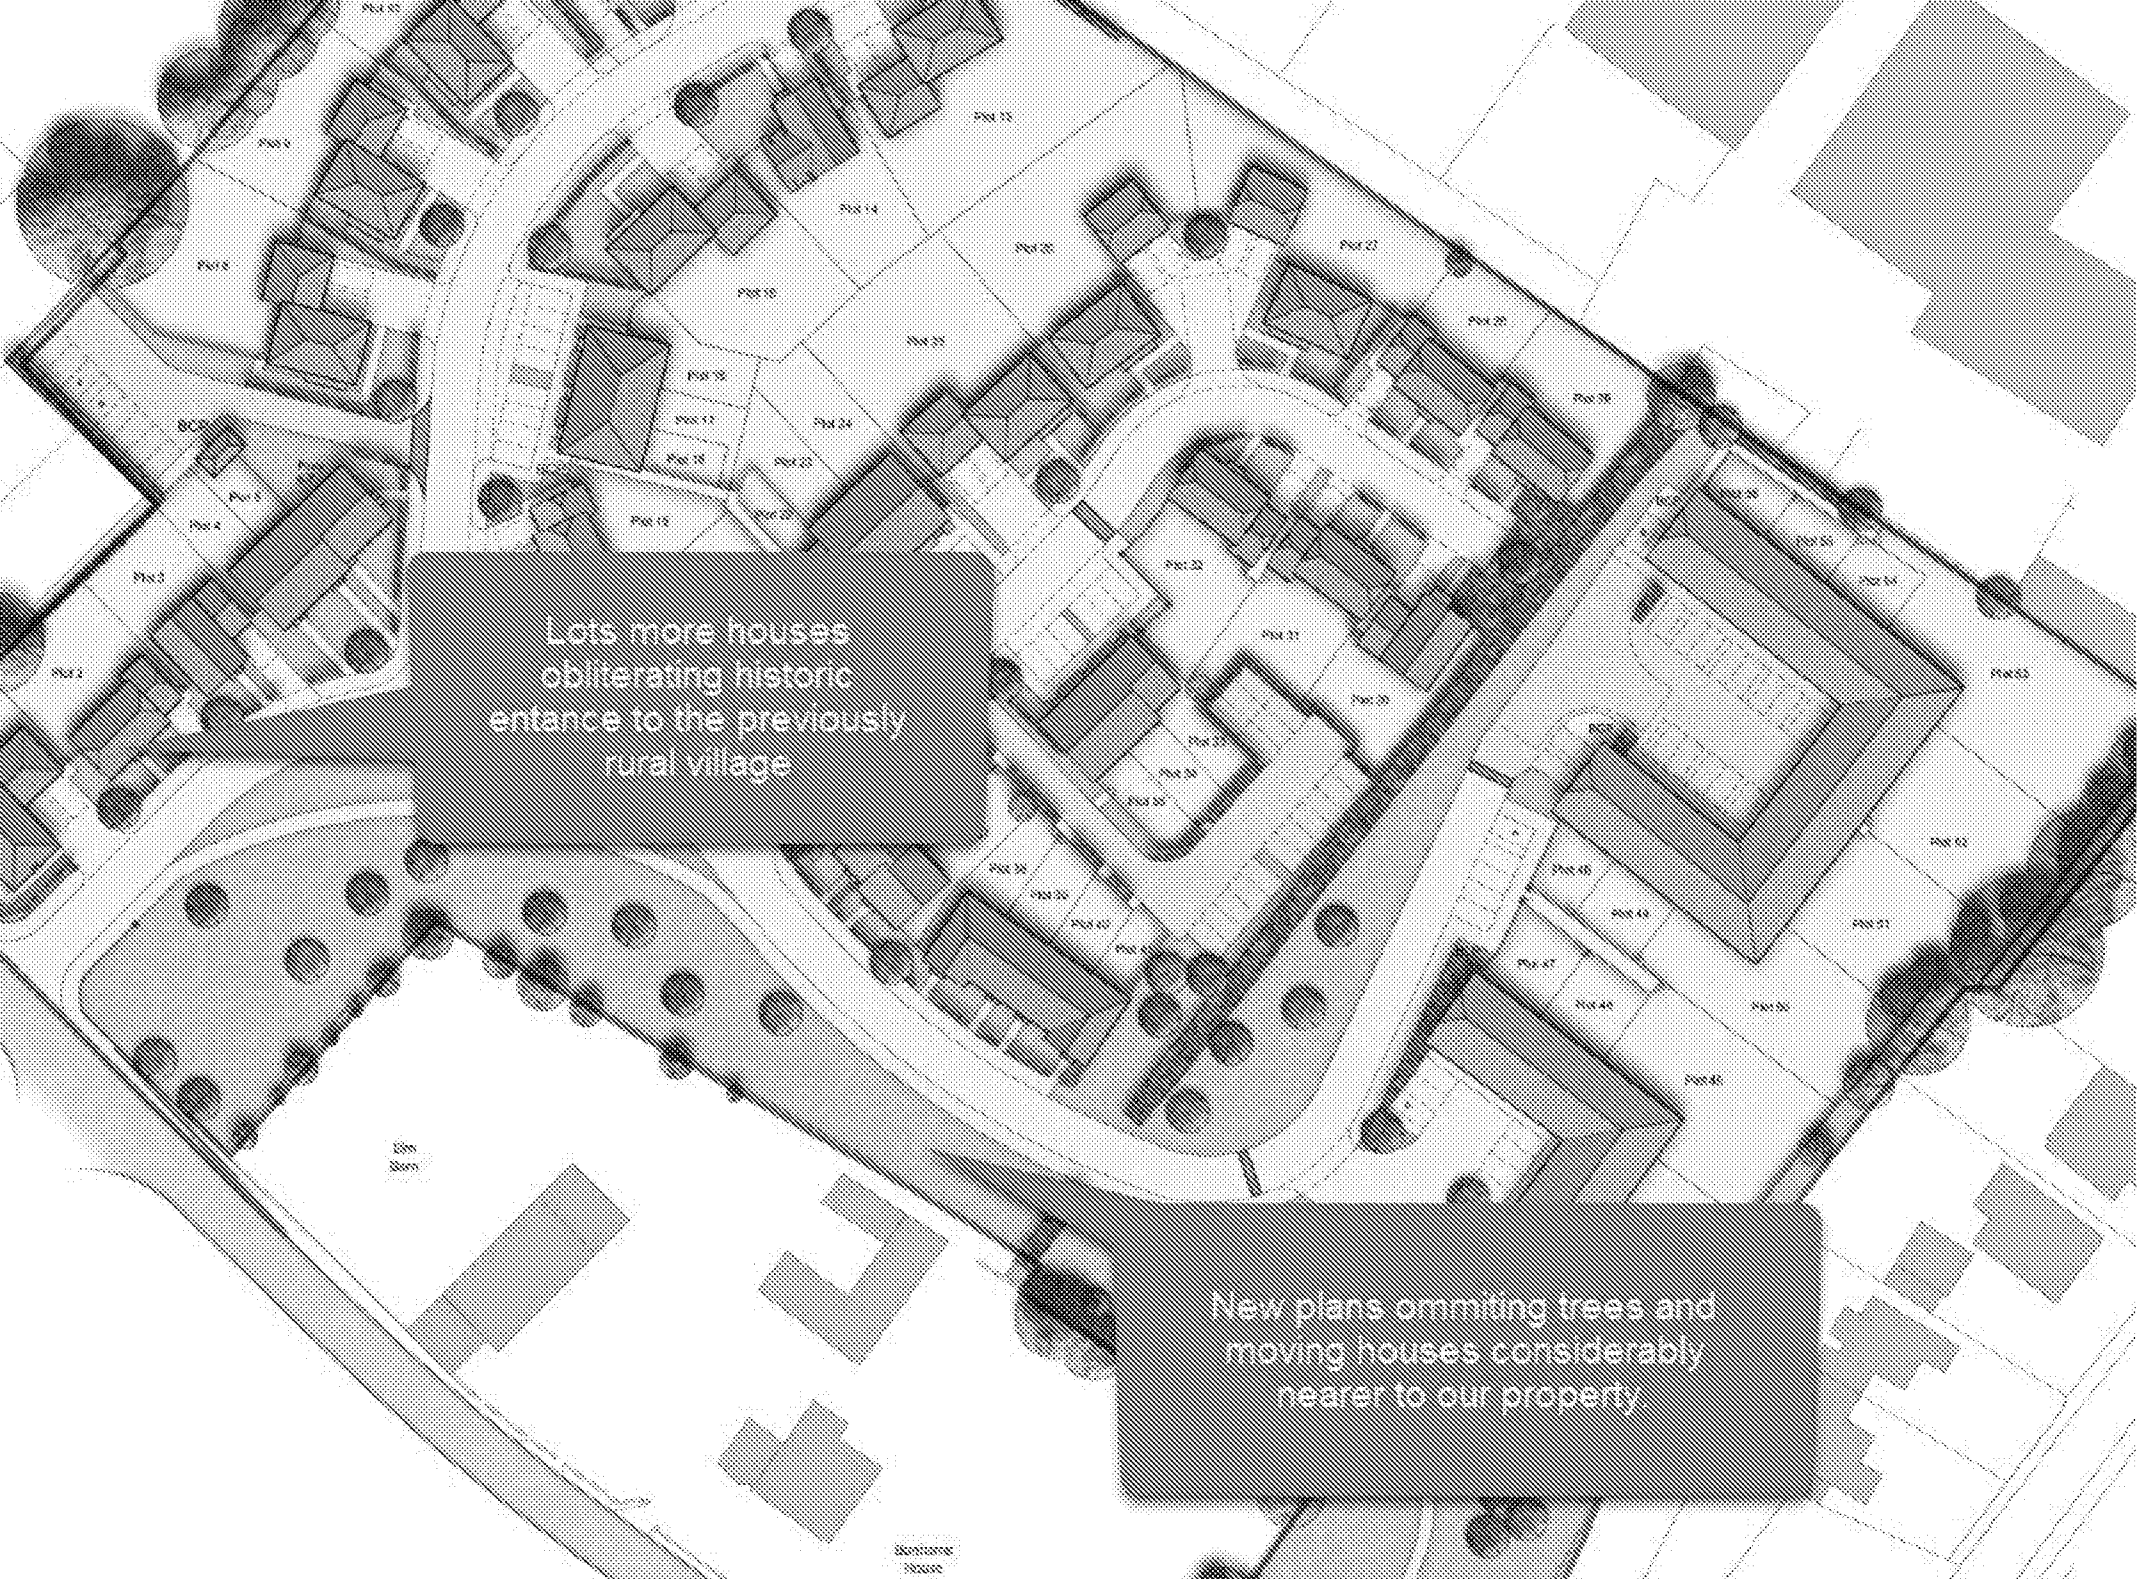

Also at the entrance of the site there was originally only one set of semi detached houses and now look, there is potentially a whole street of houses.

I understand that I can still make comments and legally they have to be taken into account even though the official public consultation period has closed.

With this in mind, please will you post this onto the site Y/63/19/RES

Regards,

Lots more houses
obliterating historic
entrance to the previously
rural village

New plans omitting trees and
moving houses considerably
nearer to our property.
