Dear Sue Howell,

I am the owner of the listed barn which is about to be surrounded by a new housing estate.

I am sure you are aware that the original plans which were unfortunately accepted showed trees planted on our boundary.

The new plans show grass and wild flowers. We both know that it takes time and careful tending to produce a wildflower area. We also both know that people renting a property as current plans suggest will care 'jack sh.t.' about a few wild flowers and it will just become a muddy mess of overflow parking for the houses.

As you can see from the images above, we have gone to great lengths and expense to create an area of wildflowers and wildlife water areas.

Please object to the fact that trees are no longer going to be planted. It needs to at least have large shrubs as a refuge for the wildlife our garden has established.

Regards,

Angela Broughton
