Dear Mr Crowther,

I am so pleased to see that finally someone from the Arun District Council namely Mr. Warwick, the Tree Officer for Arun Council, has objected to something to do with this application.

I still fail to see as mentioned in my objections, how it is possible to have some plans passed which were just about acceptable Y/1/17/OUT and then once given the approval, to alter the plans into something that is totally unacceptable to everyone except Seawards, who are clearly only out to make a bigger profit, ruining the historic entrance to the village, not to mention our beautiful listed barn, in so doing and then move on to the next scheme.

I note that Mr Warwick feels that the current plans are inferior to those submitted in the Outline application, which is also the feeling of everyone else in the community.

I appeal one more time for the planning only to be given if it is as per the original OUTLINE plans which adhere to higher-level of development principles.

Regards,

Angela Broughton
