This Message originated outside your organization.

Evening Sian

I have just received your email regarding the above mentioned project.

We are happy to accept the amended description.

Regarding the scale of the submitted drawings, we're aware of the scale noted on the validation requirements. For a project of this scale however if the drawings are submitted at this scale they would be nearly impossible to read. If however you would prefer the smaller drawings then I'll send them over as soon as possible although this would seem unnecessary.

I'll also send over the CIL form as soon as I can.

I can confirm that the proposals will not require any alterations to the existing drainage system.

I hope this answers all of the points in your letter please feel free to get in touch should you have any more questions.

Kind Regards
Catherine & Matt (**Architect**)

Luckhurst
