This application has been dealt with in accordance with the Development Control Scheme protocol for small scale proposals which include up to 5 residential units or extensions to single units accessed from roads that do not form part of the Strategic Road Network (SRN). As such the comments provided by Local Development should be considered to be advice only, with respect to this planning application.

This proposal has been considered by means of a desktop study, using the information and plans submitted with this application, in conjunction with other available WSCC map information. A site visit can be arranged on request.

I refer to your consultation in respect of the above planning application and would provide the following comments.

Having regard to the former use of the buildings and the nature of the businesses at the site, it is unlikely that there will be a material change in traffic patterns to and from the site as a result of this extension.

I therefore advise that there are no grounds to resist this proposal from the highway point of view.
