Amy

Many thanks for your email and its great that this has been written up for approval.

I acknowledge your concerns regarding the other anomalies and to be honest we had another member of staff running this project who unfortunately is no longer with us and therefore I have had to do a bit of digging to give you the following explanations. I was not aware that the below issues hadn't been formally dealt with via an application.

#### **Red Brick Specification**

We started the construction of this project just prior to lockdown and at the time of ordering the bricks we were in height of lockdown and brick availabilities were going through a testing time. We approached our suppliers on this issue and the new brick specified on the material schedule we were told was a like for like change. I have attached some photos below of the brick being used on site and we are really pleased with the result.

**Side Road Materials**

I have attached the approved site plan as part of the reserved matters application. You will note that there wasn't any Purbeck paving shown on the drawing. Therefore the schedule (as we use this for construction purposes) was amended to correct this anomaly.

### **Patios and Paths**

This again was down to an availability issue at the time of ordering the materials.

I am happy to discuss this with you over the phone if it is easier to agree a way forward. I did try to ring both yourself and Simon this morning.

Many thanks

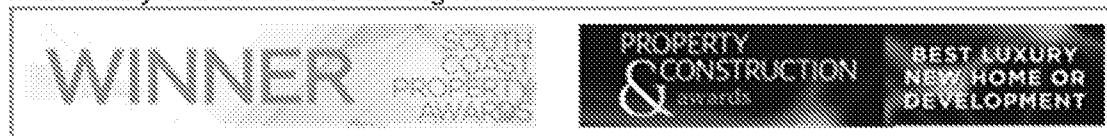

Kind Regards

**Paul Spratt**
