Afternoon Kate,

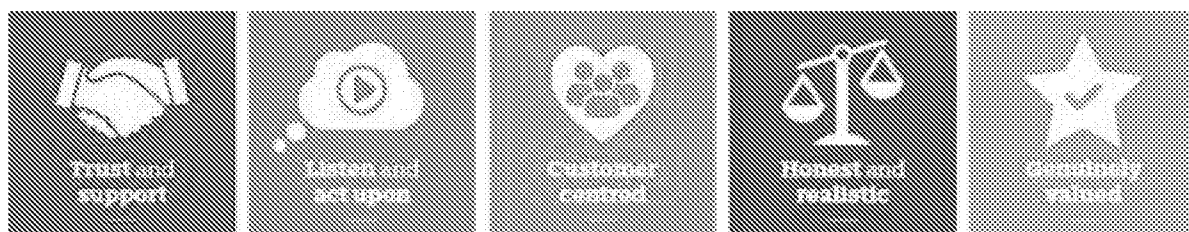

Providing the provision of fire hydrants for this development is in line with the plan submitted, West Sussex Fire & Rescue Service would be considered acceptable.

Regards

Ian Stocks

Hi both,

Ian, many thanks for your consultation responses to the above applications, I've attached for ease of reference.

I note the requirement for the proposed location of required fire hydrants to be provided and agreed pre-commencement and have attached the Mains Design drawing for both schemes. The design includes proposed hydrant locations as per Fire and Rescue Service requirements and, I hope, removes the requirement for any pre-commencement conditions? We are of course more than happy to confirm that the hydrants will be installed prior to occupation.

Please do let me know should you have any queries arising out of the above.

Many Thanks

Kate Little

Regional Planning Manager
