Thank you for your internet representation made on 10th June 2021 which has been recorded as an objection with the comments as follows:

OWPC37330

I am against this planning proposal on the grounds it eats in to the Green Belt area it detracts from the local ruralness of the area. coupled with this it will have an effect to the local residents with extra noise pollution, when being built plus after effects of being built. It will also contribute to extra co2 emission's whilst being built plus after building with new residents with extra cars in the area. This will put more strain on the local road with more pollution. Also there is no indication who will be responsible for the present water course which runs at the back of the present houses, as this has been bulldozed over at present which at certain times of the year causes ground flooding at the back of some of the present houses. These are just some of the objections i have with this proposal
