Dear Sir,

As an immediate neighbour of Hobbs Farmhouse, I would like to register my view of the proposed development under the above titles, as entirely favourable in all respects. I would have no objection to it at all.

I would also like to add, that I believe it is a matter of record that this site and the adjacent area of converted farm buildings in association with the farmhouse, have undergone many changes over the years.

The style and application, to which this building is anticipated to be used, would also seem to be entirely in keeping with those changes over time, too.

Yours sincerely

A large black rectangular box redacting the signature and name of the sender.
