Subject: Application Y/77/19/OUT.

Dear Mr. Davis

I write with reference to the above application.

To have this development granted would be very dangerous as the access on to Hoe lane would be on a blind bend. This is a very narrow country lane and not intended for this kind of development.

It is very difficult getting out on to the roundabout at the end of Hoe lane, due to the volume of traffic, and to have a development added to this would only add to the frustration.

There are other properties in Hoe lane that also have land that could also apply for planning to build and if you grant planning for this it may set a dangerous precedent.

Regards

Ian Voller
