Land South of Bonhams

Simon Davis
Arun District Council
Maltravers St
Littlehampton

Dear Mr Davis

I am writing once again in regard to the proposed development on the land of Bonhams, which lies opposite my own property. As previously stated I considered this site quite unsuitable for development of ANY size.

I am probably the oldest inhabitant in the village and have lived here all of my life, First at Flansham House and then here at Little Rookery. I have seen development in the village, all to the enhancement of this hamlet many redundant farm buildings being tastefully restored into living accommodation in keeping with the rural surrounds.

Little Rookery entrance is within yards of the Bonhams entry, the only one available for the proposed development,

As all residents know the entrance into Hoe Lane from the A259 roundabout is hazardous at the best of times, even so that two large cars have to mount the pavement to pass, let alone large lorries and construction vehicles carrying building materials and such onto the site. No doubt there will be many an accident and many occasions that the residents will not be able to exit the lane because of blockages and congestion. Remember there is only the one entrance to the site, which is quite unsuitable and would normally be turned down automatically by the Council/Planning office and was on the last application Y/40/19/OUT. What has changed to now make this a viable proposition?. This is STILL an extremely dangerous and hazardous entrance/exit to this site and will cause chaos.

It appears that the Arun District Council has gone against earlier policies which stated that there would be No development north of the new A259 bypass. This alone does not give one too much faith in the Planning Committee

Next I would like to add that too many houses are being built in the area with no regard to the impact on the existing facilities i.e. schools, transport, doctors hospitals etc.

I do suggest Mr. Davis that you re-read all of Mr Adames previous letter carefully as he has covered all of these points very well.

I would like to suggest the you and colleagues visit the site when I could be present. Failing that a courtesy call or letter in reply to this letter would be appreciated.

Regards

Ian Langmead
