Subject: Application_Ref_No=Y/77/19/OUT

Dear Mr Davis,

I would like to register my objection to this application which is in many ways unchanged from the previous application for this site.

The increased traffic created by the proposed development will still create an increased risk to other road users - cars, cycles and pedestrians. Many lane residents will attest to 'near miss' incidents that have already occurred on the bend adjacent to the proposed access to the development.

I note the attempt to improve the appearance of the dwellings but it is the concept of adding a cluster of new houses in the grounds of one of the larger, older properties, which was until recent times a listed property, that is not in keeping with the character of the lane. We are fiercely proud of the unique character of Hoe Lane and you have an opportunity now to protect that uniqueness. If this application is approved it will signal to other developers that there is an opportunity to do the same and it would not be long before the 'new houses' would out number the current ones.

Please register my objection to this application,

Yours sincerely,

Debbie Foulkes
