Thank you for your internet representation made on 28th September 2020 which has been recorded as an objection with the comments as follows:

OWPC29922

I am very concerned that insufficient consideration has been given to the rich diversity of British wildlife that exists in the Yapton-Barnham area. I have been astounded by the variety of mammals, birds and insects that I have seen just walking the local public footpaths. Many species are now hanging on by a thread here with the increasing development of these fields for housing and shopping. The wildlife is being pushed into an ever smaller area with a corresponding reduction in their food sources and living space. This concerns several species that are considered rare and nationally vulnerable, yet we have them (for the moment!) on our doorstep. I fear my complaint will have little effect, as nothing seems to stop the loss of field after field and once one field is developed it's easier to develop it's neighbour until what was once countryside becomes one big conurbation. I would strongly urge you to consider leaving the precious space we have in Yapton and Barnham undeveloped. If people are your sole consideration then consider the number of people who (like me) needed the green space during lockdown and for the forseable future.

Your views as made above will be considered before the application is determined.
