Julie,

Thank you for your email.

I have responded to planning application Y/78/20/RES on behalf of WSCC as Highway Authority. I have copied in both the planning case officer from Arun District Council and my colleague in PROW so that they can review the reserve matters application and provide comments from a PROW perspective.

Regards

Good morning Steven

I'm a bit perplexed as to why WSCC have made no reference to equestrians and routes for equestrians in the above and only routes for walkers and cyclists? WSCC have been very good on other of the local large strategic sites in pushing for routes that will help with the dire lack of local bridleways for the coastal plain equestrian community. This particular site adjoins farmland and is ideally situated to provide routes that would benefit equestrians in both Yapton and Barnham.

This site also lies at the heart of equestrian scheme E15 on the LTIP, and the British Horse Society was assured that, regardless of score (it is difficult for equestrian schemes to score highly since the criteria is very urban based) all attempts would be made to try to further these schemes as and when opportunities arose. I am enclosing a map of the LTIP schemes in this local area, together with a table showing WSCC's score and the comment written against E15 was "scope to deliver as part of development"?

There seems to have been no WSCC PROW input on this site that I could see - is this an oversight please?

Regards

Julie Robinson
