Dear Kai,

We are instructed to only use Extension of Time in exceptional circumstances and in such cases I have to get senior colleague agreement to do this. I don't consider this to be exceptional as the need for these surveys was known prior to submission so I'm afraid that we can't use an EoT in this instance.

Kind Regards

Hi Simon,

Thank you for the update.

As we appear to be down to one remaining issue, subject to comments from the Conservation Officer, we believe that there is scope to agree to an extension of time until the 30th April 2022. This will allow time for the ecology report to be sent to the Council for assessment and save the Council expending unnecessary resource and time on a resubmission if we are able to come to a satisfactory conclusion on ecology matters during the course of this current application.

Is an extension of time something you would be open to?

Kind regards,

Kai Penny MSc
