Hi Amy

Just checking you got the attached and email below last week. I am just wary that time is ticking and I don't want to go through all of this again its costing my client heavily.

Regards

Hi Amy

Following the engineers comments my engineers has replied and attached revised stuff

In response to the drainage engineer's comments;

1. I have noted infiltration testing date / locations on the plan and attached to the calculations.
2. I have applied the shallower depth infiltration testing results to the permeable paving design and updated the calculations / drawings. Sub base depth increased to 400mm.
3. Drawings updated (and attached) with permeable paving finish and formation levels.

I would be grateful if this can be sorted out and the conditions discharged.

Regards

Philip Dudley
