Dear Mr Eastham,

Thank you for your notification of 26 August 2020 regarding the above application, seeking a response by 15 September 2020.

Highways England has been appointed by the Secretary of State for Transport as strategic highway company under the provisions of the Infrastructure Act 2015 and is the highway authority, traffic authority and street authority for the strategic road network (SRN). The SRN is a critical national asset and as such Highways England works to ensure that it operates and is managed in the public interest, both in respect of current activities and needs as well as in providing effective stewardship of its long-term operation and integrity. Highways England will be concerned with proposals that have the potential to impact on the safe and efficient operation of the Strategic Road Network (SRN), in this case the A27.

Highways England note that this reserved matters application is a revised submission of reserved matters application Y/19/20/RES for 100 dwellings, which was refused in May 2020. Highways England's response to this application remains unchanged from our consultation for the previous reserved matters application from 25 February 2020.

We note specifically that this application does not seek to discharge the condition for the agreed improvement at the A27 Yapton Lane junction or cover access to the site. Highways England therefore have no comments to make on this reserved matters application and await the applicants details of the A27 Yapton Lane junction improvement in due course.

Should you have any queries regarding our response, please do not hesitate to contact us and please forward our comments to the applicant who can contact Highways England at

Kind regards,

David
