Dear Case Officer

Planning Application Y/87/13/

Installation of a solar farm comprising erection of solar arrays, inverters, transformers, equipment housing, security fencing, internal tracks and ancillary equipment

I would like to object to the above as follows:

- 1 It is a departure from the development plan.
- 2 It would be built on grade 1 agricultural land - currently under cultivation.
- 3 The land is prone to flooding. Standing water, caused by flooding, would be a problem.
- 4 Drove Lane would not be able to cope with HGVs travelling up and down it, during the construction phase of the solar farm.
- 5 Vehicles accessing the farm when it is in operation to do servicing etc will use Drove Lane as a car park. Drove Lane was not built for this type of traffic and has a problem from flooding in bad weather.

Yours sincerely
