Dear Mrs Johnson,

The reason I have not put on a full blue line is because the farm extends to in excess of 165 acres.

In the past you have advised that there is no need for a whole farm to be added to farms and that it is sufficient to show the immediately adjoining land only.

Notwithstanding this, I attach a whole farm plan for your information, based on an old Local Plan map. It is at 1:10,000 scale.

With regard to foul drainage it will be treated in a "Bio-Pure sewerage treatment plant. This type of treatment plant is called "The Septic Tank Store".

This product is being specifically used because it is used in numerous kennels and can readily deal with dog hair.

The rainwater from the roof of the building is to be collected, stored and used for washing out the kennels.

If you require any further information please do not hesitate to contact me.

Regards

Liz
