Dear Mr Gibbens,

I have forward this on again to the Conservation Officer and am awaiting a response. I would advise if you ring him, you may get a quicker reply. His number is [REDACTED]

With regards to the new application Y/89/19/HH I note consultation has now finished. I have sent a letter to you regarding pre-commencement condition for surface water drainage. This condition was on the previous permission and as it is pre-commencement requires agreement with yourself. Please let me know if you agree.

I aim to write the application on Monday. Please are we able to agree an extension until Friday 24TH January to allow for the application to be wrote and signed off.

Thank you

Amber

Hi Amber,

Is there any update on this?. Thanks!

Kind Regards
