Dear to whom it may concern,

RE: Amendments to planning application Ref: Y/98/18/RES

Please find below a list of the amendments we would like to make on planning application Ref: Y/98/18/RES.

- Apartment changes for 56-63 on the south side of elevation drawing 18.1330.607. The window configuration has changed to suit the revised kitchen layout internally. It did not meet the minimum required volume capacity set out in the HQI standards at the planning stage.
- The OV has changed from two units to one larger unit. Shown on the east elevation of drawing 18.1330.606 in the roof space.
- Apartment changes for 67-74 on the south side of elevation drawing 18.1330.706. The window configuration has changed to suit the revised kitchen layout internally. It did not meet the minimum required volume capacity set out in the HQI standards at the planning stage.
- The OV has changed from two units to one larger unit. Shown on the west elevation of drawing 18.1330.706 in the roof space.
- Car ports (7-12) and pergolas (for plots 53 and 19) are to be removed.
- Sun Tubes added for plots 62,63,73,72

I hope you have all the information you need to determine this, if not please let us know of any further details you need.

Kind Regards

Ella Hardy
