Hi Sian.

I hope this finds you well.

I was trying to think ahead & was hoping the information below will be helpful for my application. It's regarding the proposed "picket style gate's" I have mentioned, there is an example of these attached to my application you will see.

Concise Description.

These are "open" non gated area's at present, with gaps at the entrance paths to the premises of Sunflowers. I would like to put in some "picket style gates" for privacy & added security, they will sit along the boundary line, these will be of natural wood.

Many thanks & have a great weekend.

Best wishes,

Sasha.
