Subject: Bilsham road and drove lane Houses

To whom it may concern

Yapton cannot take this amount of housing development plus various other housing development already planned for village. The village already struggles with traffic problems especially near school and Bilsham Lane, the medical centres are struggling already, the village is seeing a surge in local crime there are no local police controlling this and anti social behaviour. There are not enough facilities ie shops to accommodate more people. These developments are all on green farmland, why cant brown field sites be used in the development of these houses. Also prices in this village are beyond most young people in village being able to afford so affordable housing should be a priority. The roads are crumbling under the volume of traffic through our village more traffic will increase these problems. This village is suited to smaller developments that will fit well into village life. Comet corner is a disgrace the traffic calming idea has just made it even more dangerous to access, I think the council building a cycle lane instead of traffic lights at this crossroads is a disgrace, the cycle lane will hardly be used and the car traffic is just getting worse, money could have been much better spent than a cycle lane.
