Statement of Community Involvement Drove Lane, Yapton

XXXXXX

- Relationship to Kyoto: Neighbourhood Plan (NMP)
- The SDP is strategic and therefore outside the NMP
- NMP must be in broad conformity with Strategic Plan
- NMP will not need to consider the strategic one, but any new allocations in the planned SDP need to be justified if it is allocated.

The design rationale

The design rationale is a key component of the design process. It involves the development of a clear and concise statement of the design goals and objectives, which is then used to guide the design process. The design rationale is typically developed in collaboration with the client and the design team, and it serves as a foundation for the design process. The design rationale is typically developed in collaboration with the client and the design team, and it serves as a foundation for the design process.

Poster in Yapton News

We would like to invite you to a public exhibition to see proposals for planned new homes in Yapton on the south western edge of the village.

The exhibition will set out details of development proposals for new homes and open space at Bilsham Road and Drove Lane. These proposals follow the decision of Arun District Council to identify the land for housing in their Local Plan. This site is to be allocated in addition to any sites being considered for the Neighbourhood Plan.

This is an opportunity to make your views known so where possible these can be taken into account in finalising the proposals. The project team will be on hand to answer your questions and there will be an opportunity to provide comments. You can also contact us via email at consultation@mjgleeson.com
