FLOOD ZONE 1

Land and property in flood zone 1 have a low probability of flooding

[More information about flood zones](#)

1 You don't need to do a [flood risk assessment](#) if your development is in flood zone 1 and:

- smaller than one hectare
- is not affected by sources of flooding other than rivers and the sea, for example surface water drains

2 If your development is in flood zone 1 and:

- larger than one hectare
- is affected by sources of flooding other than rivers and the sea, for example surface water drains

you can [learn more about flood risk assessment in flood zone 1](#)

3 You can also [read more about flood risk assessments for planning applications](#)

Notes

Zone 1: Comprised of land having a less than 1 in 1,000 annual probability of river or sea flooding in any year.

Zone 2: Comprised of land having between 1 in 1,000 and 1 in 100 annual probability of river flooding or 1 in 1,000 and 1 in 100 annual probability of sea flooding in any year.

Zone 2a: This zone comprises land assessed as having a greater than 1 in 100 annual probability of river flooding or a greater than 1 in 200 annual probability of flooding from sea in any year.

Zone 2b: This zone comprises land where water has to flow or be stored in times of flood (the functional floodplain). The SFRA identified this Flood Zone as land which would flood with an annual probability of 1 in 20 years, where detailed modelling exists. In the absence of detailed hydraulic model information, a precautionary approach has been adopted with the assumption that the extent of Flood Zone 2b would be equal to Flood Zone 2a. If development is shown to be in Flood Zone 2a, further work should be undertaken as part of a detailed site-specific.

Key Plan

Legend

--- Arun District SFRA boundary

■ Flood Zone 2b

■ Flood Zone 2a

■ Flood Zone 2

0 0.125 0.25 0.5 km
