Mr P. Booth,
22 fellows Gardens,
Yapton,
BN18 0HW

Dear Simon,

The developers (Bovis Homes) have recently cut down twenty plus large fir trees adjacent to the Fellows gardens 'green area' . These trees were a natural barrier between our houses and the new access road.
The drawing, soft landscape proposals, BOV 22172 11G sht 1 does not show provision for any replacement trees to compensate for the destruction of the fir trees.
Would you please place a request for some new trees of a good size and preferably evergreen, to compensate for the felling of the fir trees.
Please see attached 'before and after' photos.

Regards,

Peter Booth
