

This architectural elevation drawing shows a two-story house. The main body of the house has horizontal siding. The roof is gabled with a decorative bargeboard pattern along the eaves. On the left side, there is a brick chimney. The front facade features a small porch with a pediment supported by columns, leading to a front door. To the right of the porch is a large, dark-colored garage door. The house is set on a small patch of ground with a sidewalk.

This architectural elevation drawing shows a side view of a house. The roof is gabled and covered in shingles. A brick chimney is located on the left side of the house. The main body of the house features horizontal siding, while the gable end and a section to the right are finished with brickwork. A small, square window with a flower box is visible on the left side of the main wall.

A perspective line drawing of a two-story house. The main house has a steep gabled roof with a brick chimney on the left side. The upper story is finished with horizontal siding and features two windows with dark shutters. The lower story has a brick foundation and a small front porch with a gabled roof supported by wooden brackets. To the right of the main house is an attached garage with a lower-pitched gabled roof and a double door with vertical siding. The entire drawing is rendered in black lines on a white background.

This floor plan shows a house with a large garage on the right side. The main living area on the left includes a Kitchen/Dining space with a table and chairs, and a living room with a sofa and armchair. A central hall connects these areas to a W.C. and a staircase. A small entrance area is labeled 'Cts.' (Clothes). The plan also shows a front door and a back door leading to a garden area.
