

This architectural elevation drawing shows a two-story brick house with a gabled roof. The front facade features a central entrance with a small, covered porch supported by columns. Above the porch is a decorative pediment. To the left of the entrance is a large, multi-paned window, and to the right is a tall, narrow vertical window. The second story has a smaller window to the left of the entrance and a larger window to the right. The roof is gabled with a small dormer window above the central entrance. The entire house is constructed of brick, and the drawing is a black and white line art representation.

A detailed architectural line drawing of a two-story brick house. The house features a steep gabled roof with a chimney on the left side. The front facade has a central door with a transom window and a large multi-paned window on the right. The drawing is a side elevation showing the brickwork texture.

A 3D perspective rendering of a two-story brick house. The house features a gabled roof with a wide overhang. The front facade is made of dark grey bricks, while the side wall is a lighter grey. There are six windows in total: two on the second floor and four on the first floor. The front door is centrally located on the first floor, featuring a small gabled porch supported by two columns. The house is set on a dark grey shadowed ground against a plain white background.
